

Meeting Agenda

Location: 6205

Date: 2012-03-23

Time: 10:15

Facilitator: Björn Persson Mattsson

Participants: Jakob Svensson, Björn Persson Mattsson, Filip Brynfors, Markus Ekström

1. Objectives

- Discuss the implementation.

2. Reports

- We have finalized the first iteration of the domain model.
- We have constructed and finalized the first iteration of the design model.
- We have decided on a simple GUI.
- We have created a code skeleton.

3. Discussion items

- Implementation.
- Who does what?

4. Outcomes and assignments

Outcome:

- We decided on what to do and distributed the work.

Assignments (to be done before the next meeting):

- Björn will start working on an entity manager.
- Markus will work with the rendering and control of units.
- Jakob will implement the terrain design.
- Filip will start implementing buildings in the model.

5. Wrap up

On the next meeting we will:

- Check how people's work is progressing.
