Meeting Agenda

Location: 4205

Date: 2012-03-19

Time: 10:30

Facilitator: Markus Ekström

Participants: Jakob Svensson, Björn Persson Mattsson, Filip Brynfors, Markus Ekström

1. Objectives

- Discuss jMonkeyEngine.
- Finalize the first iteration of the domain model.

2. Reports

- We have read up on / tested jMonkeyEngine. We're going to use it with parallel projection to get the 2D feeling we want, even though it's a 3D engine.

3. Discussion items

- jMonkeyEngine.
- Domain Model.

4. Outcomes and assignments

Outcome:

- Almost finalized the first iteration of the domain model.

Assignments (to be done before the next meeting):

- Finalize the domain model.
- Construct and finalize the first iteration design model (SDD).
- Create a simple GUI.
- Set up a code skeleton for the first iteration of the project.

5. Wrap up

On the next meeting we will:

- Discuss the implementation.
